(Please refer to the enclosed codes)

Research in progress

Current national and international collaborations

Contracts in progress

Most significant publications from the last two years; maximum 10 publications

(Please write in bold those that relate to the planned thesis)

Education activity, coordinating research, expertise

Expertise relating to planned thesis

Noteworthy equipment relating to planned thesis

The applicant's Curriculum Vitae

Please write directly below or SCAN your document (in jpeg) and paste it

The applicant's covering letter

Please write directly below or SCAN your document (in jpeg) and paste it

Where the PhD has already started, the covering letter should be backed up with a progress report.

Copy of the master's degree or equivalent or, failing that, proof that it was obtained

Please write directly below or SCAN your document (in jpeg) and paste it

Thesis Project

Please write directly below or **SCAN** your document (in jpeg) and paste it

Detailed thesis plan, approved by the project coordinator (10 pages maximum, including in particular a precise current status report, the objectives, methodology, partnerships, expected results and consequences, an accurate work schedule and detailed bibliography) and if possible, the thesis committee composition

Progress report on the thesis

If the thesis has begun, a progress point is requested.

For applicants receiving joint funding, letter-headed document from the backer stating the terms, amounts and duration. The possibility of cumulating several grants

Please write directly below or SCAN your document (in jpeg) and paste it

Reasoned opinion on letter-headed paper from the project coordinator

Please write directly below or **SCAN** your document (in jpeg) and paste it

The coordinator is one of the joint scientific supervisors, a researcher from an IRD supervised or jointly supervised unit, or from a team running a project made eligible by the call for proposals, and is the contact point with the DPF (department of research and training programs).

The project coordinator's Curriculum Vitae

Please write directly below or SCAN your document (in jpeg) and paste it

A supporting letter from the IRD head unit* (IRD deputy unit head for a joint research unit)

Please write directly below or **SCAN** your document (in jpeg) and paste it

* If the project coordinator is not the unit head

The thesis supervisor(s) reasoned opinions

Please write directly below or SCAN your document (in jpeg) and paste it

The reasoned opinion will describe the benefit of the thesis topic for the home research unit or institution, the way it is organised, the agreement about the work program and details of the planned study periods away from home (the dates for the first year are fixed and cannot be altered).

Reasoned opinion scientific team leaders for each of the other host teams

Please write directly below or **SCAN** your document (in jpeg) and paste it

The reasoned opinion will describe the benefit of the thesis topic for the home research unit or institution, the way it is organised, the agreement about the work program and details of the planned study periods away from home (the dates for the first year are fixed and cannot be altered).

APPENDIX

Research area codes	
ATM	Atmosphere
CRT	Earth's crust
SOL	Soils
OCE	Oceans
ECO	Inland waters
RER	Renewable energy resources
RMN	Non-renewable mineral resources
MOR	Micro-organisms
ENC	Natural inland ecosystems
EEC	Farmed inland ecosystems
ECE	Coastal, estuarine and lagoon ecosystems
EAC	Aquatic inland ecosystems
EOC	Oceanic ecosystems
ESA	Annual crop species
ESP	Perennial crop species
ESF	Fruit species
ESH	Horticultural species
ESS	Forest-dwelling species
ESV	Aquatic plant species
ANC	Inland animal species
ANA	Aquatic animal species
HUM	Humanities
SOC	Communities
XXX	Other

Subject codes	
001	Development and governance
002	Vulnerability, inequality and growth
003	Borders, social and spatial dynamics
004	Infectious diseases, especially emerging and forgotten diseases
005	Nutrition
006	Diseases of civilisation
007	Interactions between plants and health
008	Vulnerability and climate change
009	Natural hazards and risks
010	Water resources
011	Food production and safety
012	Ecosystems and Biodiversity
013	Sustainable energies and transport
014	Other
